

Title:
**“Swasthya Wave Foundation –
Spreading Health Awareness
Among Youth”**

By: Ankit Aryan

College: Taluka Institute of Nursing, Patna

Project Type: Health & Awareness (Hack for Social Cause 2026)

Main Issue:

Lack of basic health awareness among youth and rural population.

People ignore hygiene, vaccination, mental health, and early signs of disease.

Real Situation:

60% students don't know about first aid or balanced diet.

Rural families avoid hospital checkups due to fear and myths.

What I Did:

Started Swasthya Wave Foundation – an online initiative to spread health awareness through short educational videos.

Platform: Instagram (madico92)

Type of Content:

Disease awareness (Dengue, Malaria, TB, Mental Health)

Healthy lifestyle tips

First aid knowledge

Reach: 6.3K+ followers, 20K+ views
Engagement: 300+ comments & positive feedback
Support: Teachers & classmates endorsed the project officially
Outcome: Improved interest in health awareness among students

Future Goals

**Conduct awareness workshops in
schools & villages**

**Collaborate with nursing & medical
students**

**Start “Swasthya Talks” – short health
podcasts**

Connect with local healthcare centres

Vision:

To make health education accessible, engaging & empowering for every Indian youth.

Acknowledgement:

I thank MyBharat & VBLVD for providing this platform to share our mission of Healthy India, Aware India.
